RELEVANT WORK EXPERIENCE

Mobile Application Software Developer – Club Soda, Inc. Santa Clara, CA

July-August 2021

Full-Stack | React-Native | AWS | Git/GitHub | CloudWatch | DynamoDB/GraphQL/Elasticsearch/Kibana | XCode

- Debugging a pre-written app that was previously accepted on Apple and Android platforms to host 10,000's of users in attempts to launch a personally funded startup by deadline
- Meeting with colleagues and CEO to discuss requirements to constantly innovate functionality and design
- Learning through trial/error and research to understand new technologies that the entire team was unfamiliar with
- Constantly writing, testing, and debugging externally and internally written code, written by myself and the team
- Working extensively with Javascript on the front-end on the React-Native side
- Software design knowledge, software design patterns, event-driven architecture, and modular architecture
- Experience with Git/GitHub work-flow best practices
- Working extensively with back-end configuration on AWS and the data tech stack

SEO Specialist – Club Soda, Inc. Santa Clara, CA

June-August 2021

Squarespace | Google | Spotify | Gmail

- Working on a personal music project website for a non-music professional
- Working on improving the SEO of the Squarespace website utilizing built-in tools and Google
- Improving SEO on the Squarespace website and the Spotify account associated with the website
- Communicated via Zoom and Gmail with updates and information
